AQUIRE
GLOBAL

Company Profile
2018, Sri Lanka

About AQUIRE GLOBAL

AQUIRE GLOBAL is a platform for partnerships in emerging opportunities in Sri Lanka. We are professional and capable as an independent project integrator. Our expertise is built around extensive networks, experience in development projects, talented resource personnel and reliable application.

Our key team members have over 30 years of experience in infrastructure projects, construction, international trading, aviation, real estate and strategic investments. Our wide network in the business arena is built on the proven track record of our team in delivering end-to-end solutions in project development and implementation.

Our extensive global network of large conglomerates and international finance houses allows us to create the ideal formula of proponent and financiers needed for success of an infrastructure project.

AQUIRE GLOBAL identifies large projects that are in the pipeline and within the development goals of priority. Our team of experts provides all technical, administrative and marketing support needed for successful project acquisition.

Our in-depth knowledge of varied technical, commercial components and procedural aspects provides our partners with the valued advisory and guidance from proposal development, evaluation, contract negotiation, project implementation to completion and final handover.

Our Mission

Our mission is to foster partnerships with globally reputed contractors, investors and traders with emerging opportunities in Sri Lanka and SAAC region. We aim to deliver results through knowledge, reliability and capability.

Values

AQUIRE GLOBAL values well established relationships with clients and partners, reliable execution and confidence in the quality of the solutions that are delivered. Our reputation is our key asset.

Areas of Focus

A broad range of projects and opportunities lie in the areas of energy, oil, environment, construction, logistics, natural resources, real estate and hospitality making Sri Lanka a strategically centered location in South Asia. We promote partnerships in the following domains:

EPC – We promote reputed and well-experienced global EPC contractors to engage in upcoming projects including design and build that are in the pipeline. The areas of focus are highways, refineries, ports, domestic airports, water etc.

Investment Projects – While we continuously engage in strategic investments we offer our clients/partners with lucrative development projects in the public sector including private public partnerships. AQUIRE GLOBAL is able to offer project identification, guidance, consultants and partnerships as project

Promoters. We are able to bridge International EPC contractors and financial houses.

Consultancy – Most development projects are in need of international consultants to offer their solutions. We engage the best consultants for projects of all types.

Trading – We are geared to offer technologically advanced solutions to our clients. We are experienced many opportunities including expertise in local and international procurement tenders.

At Aquire global our service has no limits.

Our Solutions

AQUIRE GLOBAL offers end-to-end solutions in large turnkey projects in Sri Lanka. Our solutions extend in facilitating our partners in project identification, securing, completion and other ongoing services.

Services offered by **AQUIRE GLOBAL**:

- **Project identification** – Through our relationships we offer our partners with most feasible upcoming projects.
- **Project startup and company establishment** – Once the project is awarded we offer company incorporation, startup office space and other ancillary administrative services all bundled together.
- **Project proposal consultancy** – We are able to provide consultants, engineers and other technical and financial resource personnel. Together with our preferred suppliers you have the option of preparing documentation including reports and project feasibility at competitive rates.
- **Partnering with local subcontractors** – We have an open book procurement method for you to choose local suppliers from our preferred list of engineers and subcontractors.
- **Project Finance** – Through our network of local and international finance houses we coordinate the best terms needed for project finance.
